

CORPORATE COMPREHENSIVE

Build competencies within your organization

To compete in today's global market, organizations must continue to grow and change to the needs and demands of their customers. Success depends on flexibility, teamwork, diversity, a focus on core competencies, and an active training and development program to increase individuals' knowledge and skills.

A comprehensive solution for your diverse population

Invest the future of your organization by helping your employees gain the skills and self-reliance they need to function productively. The Element K® Corporate Comprehensive library provides you with a complete solution to help you develop and strengthen your workforce. The library includes a full suite of vendor authorized, Element K-authored IT courses, business courses with realistic business simulations, hands-on virtual labs, and an extensive collection of reference materials - addressing and supporting the diverse job functions within your organization.

Our online courses cover a broad range of topics in the IT, business, and soft skills areas.

Build skills in IT categories such as:

- Desktop applications
- Networking and operating systems
- Programming and web development
- Design and media
- Project management
- Cisco® and Cisco Advanced Technologies
- Security
- Communications technologies

Build competencies in business and soft skills areas such as:

- Coaching and motivating
- Communications
- Emotional intelligence
- Finance
- Management and leadership
- Organizational skills
- Problem solving
- Sales and customer service
- Teamwork

Element K's vLab® virtual labs are integrated into courses and support many Microsoft®, Cisco, CompTIA®, Lotus®, and Linux technologies and certifications. This web-based learning system enables learners to connect directly with live equipment to practice and apply newly learned skills in a risk-free environment.

Our e-Reference library supports the learning experience by providing just-in-time relevant information on a broad range of IT and business topics. The library includes full-text searchable e-Reference books from top IT publishers and business thought leaders, over 12,000 task-specific "how-to" articles on a broad range of IT topics, and over 1,800 publisher-approved executive level business summaries of today's most recognized business books. These on-demand resources are accessible 24x7 and available in multiple formats for maximum flexibility in meeting your training needs.
